
2. Create an Environment for Learning

ϕ Learning organisations and learning cultures

- ◆ Theories of adult learning, models and methods, including teaching and learning styles
- ◆ Learning materials (including e-learning) to support learning for self and others
- ◆ Individual learner differences

ϕ Theories and processes of change and the role of the change agent

- ◆ Changes impacting on inter-professional working and collaborative practice
 - ◆ Management of change in delivering suitable learning opportunities to meet individual learner's learning needs throughout the learning programme
 - ◆ Inter-professional roles, functions and responsibilities
- ### ϕ Design and develop learning programmes in the light of drivers for change relevant to candidates' own practice
- ◆ Applicable standards and frameworks for learning programmes
 - ◆ Quality assurance frameworks for learning programmes
